They Don't Give A Damm! Money Talks

People who are living in the area of the building site are not being heard!

Construction is going on like it is nobody's business, "jump high jump low if you ain't got money close your front door" That is the signal the people are getting after so many letters & signatures, not to allow the crematory from this funeral home to come in a residential area. No answers from the government no one is coming to the aid of the people. Kids are terrified, and every block that goes up is one step closer to their nightmare. Workers are pushing as they need to be done by the end of this year. Question: does the owner of this have one in front his home? why not? he lives in a upscale area? so why step on the San Nicolas people? is it because: **THEY DON'T GIVE A DAMM! MONEY TALKS?**

SNBA First Summit Was Successful

San Nicolas Business Association(SNBA) first Business summit was tremendous, said President Andres Hernandez. In this case he,focused on the fact the Summit turned out to be more successful than aspected. Because more project was presented than expected. He even said that Director of INSAM Joel Rhanjerc brought forward, that if 10 percent of the

projects that were presented been executed in San Nicolas, we will have a brand new San Nicolas.Furthermore he said that due to the fact that many projects were presented, the five to six businesses that made known that they will close their doors end of this year or the beginning of next year, will not close. In this case giving doing business in San Nicolas the benefit of the doubt.At the last moment other local investors asked to form part of the Summit, but they were informed that at a second business summit they will have the opportunity to participate. Looking at matters from a economic perspective for San Nicolas, Andres Hernandez came to the conclusion that the hotel in Seroe Colorado will be the catalyst for the area of San Nicolas. Meaning the once the hotel at Seroe Colorado is up and running , due to the amount of guests and considering the fact that 500 person will be working at the hotel,other businesses will rise and existing businesses will experience an increase of sales.

At the other hand Minister Otmar Oduber was impressed of the quality of the projects that presented during the Business Summit and within that the,interest for doing business in San Nicolas and Surroundings. In this case he referred to local and non local investors. He also said that during the Summit the proverb : What came first the chicken or the egg was brought forward. Meaning should the business world in San Nicolas, expand business before the flow of people to this area increase, or should start expanding business once the flow has in creased. The Minister also said that will make a short cut road to and from the Seroe Colorado hotel, giving a faster access to San Nicolas Main street. He also emphasized that he agrees with SNBA slogan which is,"The Time is Now", for San Nicolas.

One of the investors that made known that can open or start up a new business in San Nicolas is Gianni's Group. The representative of the Group informed that within six months can set a plan for a business in the building what is known as the " Old Barber Shop". The intention is for the end of the year 2020 a food and beverage business is ready for business. Next to the sale of ice cream. Congrats to SNBA for having a fair amount of investors at the Summit. Lets us hope that the business interest will convert into tangible and permanent business in the very near future.

Protest Against Hotel In San Nicolas Continues.

Green light has been given by the Government, and cleanup has started to start construction, however the group called Aruba Warriors are not giving up as they are fighting to protect the wild life in the area where the hotel has to come. Their latest move is to put a cymbol that Indians used to use to protect their property hoping to connect with our Indian ancestors spirit for help.

Island Fest KEEPS Disappointing San Nicolas

We have mentioned a few times that this Island Fest event does not have a San Nicolas identity, and seeing the entertainment line up for August 28th NOTHING has changed. If you are inviting locals and visitors all the way to San Nicolas they should be able to enjoy our San Nicolas talents, but the again like we said in earlier post their mentality of TAKE IT AND LIKE IT has to stop. Let the people enjoy the REAL San Nicolas, and it's talents.

Who did visit Cosecha?

A cute family who is on holiday. The first time they came to Aruba, it was just Mom and Dad, as there were no kids yet. Now with these two cutie patooties on board too, this family is enjoying the Cosecha Store and Creative Center in San Nicolas. The family just got a plus one, that beautiful driftwood fish is going to the USA.

San Nicolas Main Street Building Owners Ready To Invest Back In Their Buildings

During the first Business Summit, organized by San Nicolas Business Association , Marcelino Quant, representing, the Marchena Hotel Building, also gave a presentation. He informed that since 2013 there was a renovation plan in writing for the Hotel last mentioned , but because of non pleasant circumstances the plan is put on a hold.

And now that there is new development on the rise for San Nicolas and Surroundings, the intention is to re activate the contents of the plan. However, will start executing the plan if meet with the following three conditions:

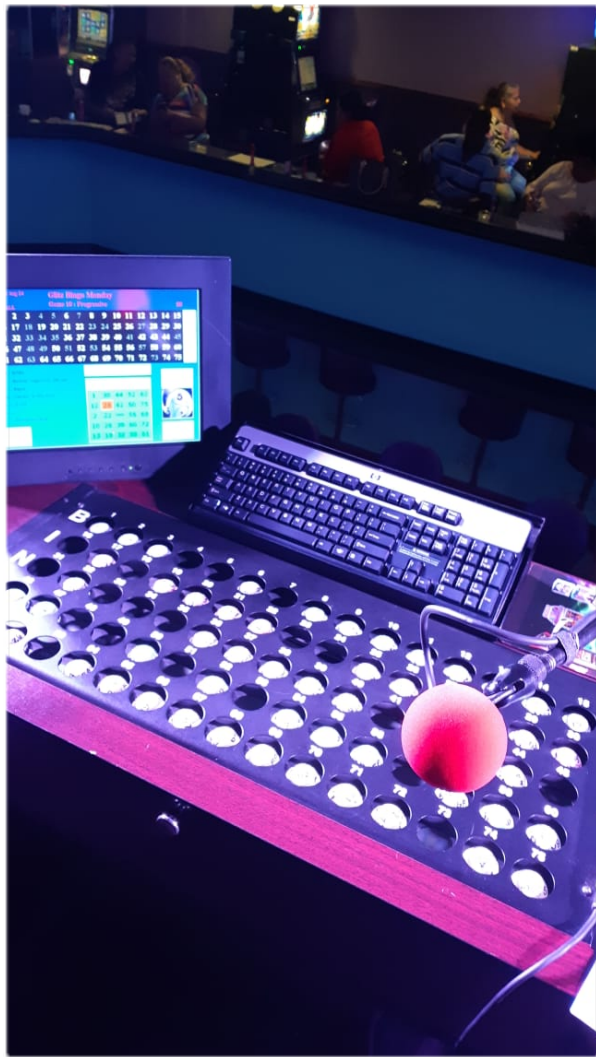

1. The building of the hotel in Seroe Colorado must visibly been put in action.
2. The Fast Ferry project must also been put in action, because it will create a flow of people that will make use of the services the New Hotel Marchena will offer.
3. The Police Force will have to better the security aspect in Main street of San Nicolas. In this case Marcelino Quant is referring to a person that is addicted, every time he sees himself in a shop window, he bashes in the shop window concern. He finds that has to put and end to this, because every time the person concern destroy the shop windows money has to be spend for them replaced.

So, if comply with the conditions mentioned renovation of the building will start. In this case will convert the building into a 14 room hotel with Pent House. Or a 12 room hotel with a roof terrace. According to Marcelino Quant the owners of the hotel, already have all the necessary permits.

Amazing Bingo Turn Out

Yes it was amazing the first weekly Bingo you can play in the Casino or even at home for free. We will be sharing out FREE bingo cards again in San Nicolas so you can enjoy games with your family at home and win cash, give us a call for your FREE bingo card 740-0505 Unity In The Community
